

Aspectology School

We have experienced this school for ourselves as very intensive and rewarding. That's why we are happy to be able to offer it to you, as well. And there is at least one more reason now to gift yourself with ASP: The brandnew update with channelings from Adamus Saint-Germain.

Since the making of the original ASP in 2008 there has been a lot of transformation in the consciousness of us and in the world. The workshop still includes the core channelings by Tobias and the update adds new channelings and guided exercises from Adamus each day. With his inputs Adamus brings ASP up to date and extends the whole subject into another dimension.

Tobias gives detailed informations about what's the purpose of aspects, what kind of aspects there are, how you can perceive them consciously, and what's the role of your soul in this process.

Aspects are naturally belonging to your life. They serve you and are consciously or subconsciously used in daily life. Maybe you know the feeling that you can prepare some coffee or ride a car easily without thinking about it? It's due to an appropriate aspect supporting you. But the effect of aspects goes far beyond day to day life.

Other aspects may have been wounded in a traumatizing situation probably and are stuck now. They can have a very troubling effect on your life. Tobias and Adamus will guide you through some practical experiences demonstrating, how you can easily create an opportunity of healing and balancing for the wounded stuck aspects. The integration of your aspects is an important step towards setting free new potentials for your life.

After attending the Aspectology School you will be able to shape your life more consciously. You will know, how to create aspects consciously for yourself and allow them to support you.

This school is also very interesting for therapists and people interested in psychology, for Tobias and Adamus offer a broader view to common psychology and complement it.

Beside the content there is an intense energetic process unfolding during the workshop, which allows a profound personal experience in addition to the spoken words.

Note: Those who are taking mood altering, psychotropic, or psychotherapeutic medications are not eligible to participate in the Aspectology School.

Recommendation: It is strongly recommended that you attend Tobias' Sexual Energies School before you take the Aspectology School.

Seminar language is German, also English if necessary. The workshop includes channeled sessions from Tobias through Geoffrey Hoppe. The channels are on DVD in English language with German subtitles. Each participant will receive a transcript in German (or alternatively in English on request).
